Mr. Bob Baker
Rt. 1, Box 327-E
Orchards, Washington

Dear Mr. Baker:

In response to your telephone call, we are enclosing a map of the Indian Pits area. We have indicated in red the best route to the Indian Pits.

When you arrive at the road junction immediately below Silver Star Lookout, take the road to the right which leads downhill. This is a State Fireline road that heads towards Pyramid Rock. Follow it to the first saddle where you will see a small road leading into an area of terracing and tree planting.

There is no trail to the Indian Pits, but if you will follow the approximate direction of the red arrows on the map, it will lead you up to the saddle to the east and then on up the ridge to the Indian Pits. The Pits are actually located on the peak with a talus rock slope which is visible from where you will leave your car.

We hope this is of some help to you. There are no signs in the area which indicate the location.

Sincerely yours,

ROSS W. WILLIAMS
Forest Supervisor
